MAKE A GOOD NOODLE
There is nothing so good as a good noodle. It is a staple food and is enjoyed by all. It is a good food for the family. It is a good food for the school. It is a good food for the church. It is a good food for the community. It is a good food for the world.
Star Drilling Machine Co., Akron, O.

It Happened in Rummer.

"George! George!" whispered Mrs. —; "wake up! There's a burglar down stairs. I hear him."

George was out of bed in an instant.

"Hist!" said George.

Quietly he slipped on his shoes and trousers and stole softly from the room. The minutes sped fast. The wife, listening intently, heard nothing. At last anxiety overcame fear. She crept to the stairway, leaned over and called, "George!"

"Well what is it?" replied her husband's voice. It came not from below but from above.

"What on earth," asked his wife, "are you doing up in the attic?"

"Why," whispered George, "didn't you say the burglar was down stairs?"—Sumner Star.

The COURIER will wager a nit to a nail that the above refers to George W. Thompson, and we see where he was right. The COURIER man has an attic in his new house and intends to use it for the same purpose.

Manzan Pile Remedy, price 50c guaranteed. Put up ready to use. One application gives prompt relief to any form of piles. Soothes and heals. Sold by E. W. Herring.

The COURIER tenders its sympathies to Mr. and Mrs. Malcolm Phelps of near Salisbury over the loss of their 4-months-old son who died of cholera infantum Monday, August 3.

The Sumner Star is responsible for the following precocious item: Master Curry Hopper was a caller at our sanctum Thursday. He is only about 3-years-old, and he knows the alphabet by heart. He has about learned the cases and has promised to come in some time and help us out when we are rushed.

Friday night Arch Turpin, Lee Lemons and Jim Leopard, all of Carrollton, were thrown from a buggy in a runaway and were all injured. Arch Turpin was the most seriously hurt. He was kicked on the breast by the horse and knocked out of the buggy. His shoulder was dislocated and a gash out on his head. Lemons was cut over the eye and on one leg. Leopard was scratched and bruised all over, beside sustaining a deep cut on one of his hands. The horse they were driving is considered gentle, but can not bear the touch of a whip. When Turpin struck him with a whip, the trouble began.

We are informed by the Shannondale correspondent to the Salisbury Press-Spectator that quite a bit of excitement was caused in Shannondale Monday evening when the report came that "Uncle" Peter Finnell was fatally injured by a foot adz falling on him, while at work putting in a hay fork at Will Cloyd's. Dr. Temple of Rockford was called and found a wound in the temple which was bleeding profusely. The victim's son stopped the flow of blood, and "Uncle" Pete was resting fine, except from being weak from loss of blood. His friends are all congratulating him on his narrow escape.

We see by the Mendon Constitution that the Farmers Mutual Fire Insurance Co. of Chariton county has sustained quite a number of losses during the last few days, among them being the following: Barn of Wm. Koch, near Triplett, destroyed by fire; barn, hay, grain and two calves belonging to W. L. Richardson of near Rothville; barn belonging to Jas. Miller of Lagonda destroyed by lightning; barn of Mr. Wescott of Bynumville damaged by lightning; house of John Callahan of Mike damaged by lightning. The losses will be adjusted just as rapidly as the adjuster, W. H. Mayo, can make the rounds.

RE-ACTIONARY POLICIES.

The Republican platform seems to suit the "malefactors of great wealth," and Mr. Roosevelt has assured Senator Hopkins that he is delighted with it. Is it not rather singular to see the trust-buster and the trust-maker both satisfied? Have the trust magnates all reformed and the trusts become "good trusts," or has Mr. Roosevelt joined the re-actionary forces of the Republican party that dictated the most important planks of the Chicago platform? As Candidate Taft is to be an understudy of President Roosevelt, and is to further carry out "my policies" it is most important to know just where the president now stands on the matter of trust-busting and the punishment of evil-doers.

What lends color to the charge that Mr. Roosevelt is showing re-actionary symptoms is the report that the prosecution of the fertilizer trust has been discontinued. There is also the fact that in spite of the seven-years' work in the pursuit of "malefactors of great wealth," not one of these in stripes though we have been constantly reminded they should be.

The president in his memorial day speech declared:

"There has been plenty of dishonesty by corporations in the past. There will not be the slightest let-up in the effort to hunt down and punish every dishonest man."

And at Provincetown last year we were assured:

"Whenever evil-doers can be found they shall be brought to justice, and no criminal, high or low, whom we can reach, shall receive immunity."

Has the fertilizer trust joined the ranks of the good trusts, and has "my dear Harriman" reformed his management of the Alton railroad? The one is now free from molestation, and the greater malefactor and corruptionist has never been prosecuted.

It is almost impossible to escape the conviction that Mr. Roosevelt must have changed his mind about the evil-doers, or has only been talking for political effect.

What, however, is most to be feared is that Candidate Taft is no more hot-footed after bad trusts and corporations than Mr. Roosevelt has been. The evidence that Wall street and the trust and railroad interests are for Taft raises a strong presumption that he will not molest them.

SAINTS AND SINNERS.

Is there going to be a parallel case in this campaign to the Harriman incident in 1904, in which the virtuous Roosevelt tried to put Judge Parker in the Ananias class, while at the same time urging Harriman, a malefactor of great wealth, to boost the campaign fund with contributions from the railroads and trusts? It certainly looks that way, for while the politico and no doubt honest Taft is giving out that no contributions will be accepted from trusts, his wicked accomplice, Sheldon, who he made treasurer of the Republican national committee, is collecting funds from the trusts and corporations with the most persistent assiduity. The plan of Republican managers of not letting the public into their confidence until "after election" will thus screen them from censure until the boodle campaign is over. If successful at the election the Republicans will claim that the vast sum used was alone to blame, and, if defeated, why after us the deluge?

Pinules for the kidneys, 30-days' trial, \$1.00. Guaranteed. Pinules act directly on the kidneys and bring relief in the first dose to backache, weak back, lame back, rheumatic pains kidney and bladder trouble. They purify the blood and invigorate the entire system. Sold by E. W. Herring.

Agricultural College Owns New World's Record Jersey Cow.

Pedro's Estella, a registered Jersey cow, recently completed an official test under the rules of the American Jersey Cattle club, producing 11,063 pounds of milk and 712 pounds of butter in one year. This exceeds the highest previous record for a 3-year-old Jersey by 104 pounds of butter.

This cow was bred and is owned by the Missouri Agricultural college at Columbia as have been her female ancestors for the past four generations. She is a cow of great type for production, has wonderful staying qualities, and weighs about 900 pounds.

As to the feeding, Pedro's Estella was not fed an excessively high grain ration at any time during the year. The average amount of grain fed per day was about 14 pounds, which consisted of corn, oats, bran and oilmeal; during the winter alfalfa hay and ensilage were fed. She was milked three times per day and a record of the amount of milk was kept. Two days out of each month the milk was tested by men representing the state dairy and food commission. This test was used to estimate the total amount of butter in the milk.

The total cost of feed was approximately \$80 for the year. A comparatively high cost of feed naturally results from the high level of prices during the year and partly, of course, from the fact that such a cow has to be fed liberally to produce liberally. The milk was used with the milk of the herd for butter making. The average price received by the dairy department during the year was 33 cts. per pound. The 712 pounds produced by this cow gives an income of \$234.96 for butter. In addition we sold approximately 8,850 pounds of skimmed milk produced by this cow at 25 cts. per hundred pounds, for hog feeding, which brought \$22.10, or a total income for the year of \$257.06. Had we sold it at retail the 5,330 quarts produced, at the local price of 7 cts., would have brought \$381.10, in either case leaving a large margin above cost of production.

Such a record would naturally appear almost impossible to the farmer who is producing milk with average cows. Missouri farmers milk an aggregate of three-fourths million cows, the average production of which is 140 pounds of butter per year. This cow belonging to the agricultural college produced as much as five average Missouri cows and it cost about as much to keep her as it does to keep two of the average cows.

Book and list of questions free—sent sealed.

FREE MUSEUM OF ANATOMY FOR MEN.

Mrs. Tom Adams of four miles east of Salisbury died Wednesday, August 5, 1908, at the advanced age of 85 years.

Arthur Clark, aged 16 years, was arrested in Kansas City last week. He confessed to helping rob a store at Shackelford Tuesday night. A man named Frank King seems to have led the boy into crime. Watches, knives and jewelry of various sorts was the booty secured. The two offenders were taken to Marshall and placed in jail there.

The infant child of Riley Henderson of Carrollton died Saturday.

A negro base-ball game was scheduled in Glasgow for Sunday, but the visiting team from Salisbury failed to appear on the diamond.

While in Salisbury Saturday the editor of the COURIER noticed Thos. Lamb of near Salisbury hobbling around on crutches as a result of having stepped on a nail, point up, with his left foot a few days before.
